

I am paying for XM Satellite Radio service. It is an excellent service and is a great companion on the way to visit my daughter in Columbus, Ohio as she attends college there. Please reject NAB's petition 04-160. It is wonderful to be able to listen to stations without interference and losing the station reception travelling. The weather and traffic channels are wonderful because they are always on and you don't have to wait for "traffic on the 8s" as on conventional radio. The quality I pay for is something I would like to maintain.

Sincerely,
Janice Hettler
